

NEW Smart Restaurant Management System

# Run your restaurant on **autopilot.**

Tablio brings your tables, orders, kitchen, billing and accounts into one beautiful app — so every order reaches the kitchen in seconds and every bill is settled without the chaos.

Tables → KOT → Kitchen → Billing → Accounts

A product by **Solver Solutions** | Powered by **Speed Plus 9** | Barnala, Punjab IN

THE PROBLEM

SOUND FAMILIAR?

## Running a restaurant the old way is **chaos.**

Paper slips, shouted orders and manual bills cost you time, money and customers — every single night.

-  **Paper KOTs get lost**  
Slips go missing between floor and kitchen — orders are remade or never made.
-  **Wrong & slow bills**  
Manual totals mean mistakes, disputes and a queue building at the counter.
-  **Guests left waiting**  
Slow service and slow billing mean tables turn less often and walk-outs rise.
-  **No real visibility**  
The owner can't see live sales, cash, or who's handling what — leakage hides easily.

Every lost order and wrong bill is **lost profit** — and a customer who may not return.

MEET TABLIO

# One app. Your whole restaurant.

From the moment a guest sits down to the second the bill is settled and recorded in your accounts — Tablio runs the entire flow, live, on phone, tablet and desktop.

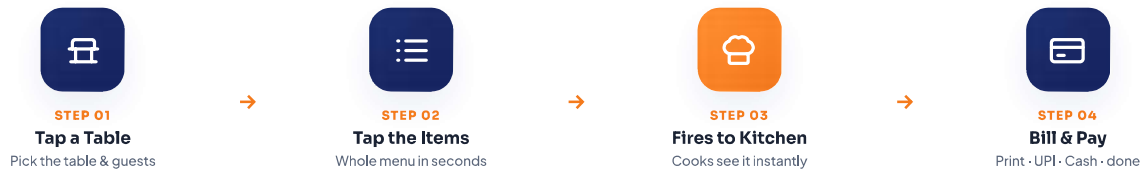

**Works on any device**  
Waiter phone, kitchen screen & owner desktop — all live-synced in real time.

**Set up in 15 minutes**  
Import your menu, print your QR codes and take your first order tonight.

**Built for Indian F&B**  
GST, KOT rounds, UPI, offline mode & ERP — the way your restaurant really runs.

TABLE TO BILL

# Just 4 taps. Your staff learn it on day one.

From a guest sitting down to the bill settled and recorded — the whole journey is **four taps**. No paper, no shouting, no counter queue. See it on the real app screens next →

EVERYONE WINS

ONE APP — FOUR HAPPY TEAMS

# When work gets easier, everyone wins.

The next four slides show exactly what each person gets.

**FOR THE OWNER**  
**Full control, total clarity**

See live sales & tables from anywhere, plug leaks, and record every bill straight into your accounts.

Live dashboard | 1-click to ERP | No leakage

**FOR THE WAITER**  
**Less running, more serving**

Take the whole order on a phone in a few taps —no paper, nothing forgotten, learnt in a day.

3-tap order | No paper slips | Special notes

**FOR THE KITCHEN**  
**Clear orders, no confusion**

Orders pop up on a screen the moment they're sent. No shouting, no lost slips, mark each dish ready.

LiveKDS | Pending—Ready | Instant alert

**FOR THE GUEST**  
**Faster food, happy visit**

Less waiting, the right dish every time, a quick correct bill and the receipt on WhatsApp.

2x faster turnaround | Pay at table | Bill on WhatsApp

FOR THE OWNER

PEACE OF MIND

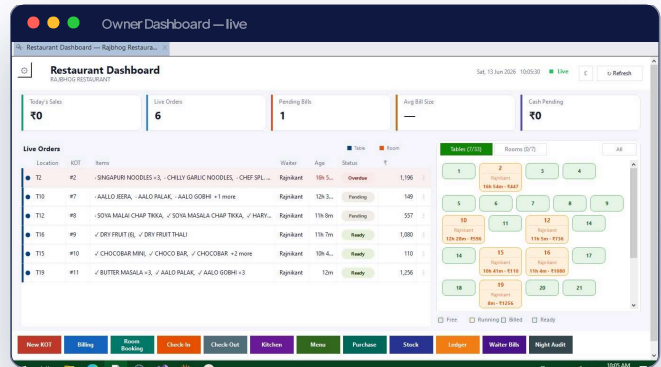

# Run it from anywhere. See everything.

Your whole restaurant on one live dashboard — and every rupee accounted for, automatically.

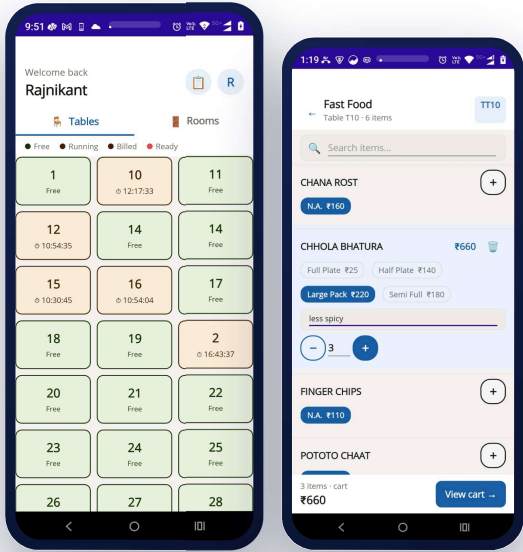

**Watch your floor live — even from home**  
 Real-time tables, running amounts and the waiter on each table, from any browser.

**The numbers that matter, at a glance**  
 Today's sales, live orders, pending bills, average bill & cash pending — always live.

**Plug the leaks**  
 Per-waiter accountability and every void, cancel & discount logged — nothing hidden.

Every app bill posts into **Speed Plus 9 ERP in one click** — sales, cash & accounts, done automatically.

LESS RUNNING  
**More serving.  
 Less chaos.**

The whole floor and the whole menu live in one hand.

**Take the order in 3 taps**

Table → category → item. Quantities, half/full plates & combos, all on the phone.

**No paper slips, nothing forgotten**

Add special notes like "less spicy", send round after round — every KOT is tracked.

**See the whole floor at a glance**

Free, running, billed or ready — with running totals and timers on every table.

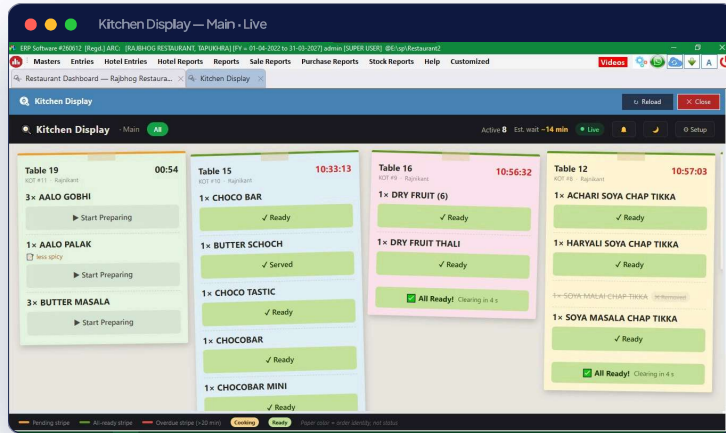

**Learn it in a single shift**

If they can use WhatsApp, they can use Tablio — new staff are productive on day one.

LIVE KITCHEN DISPLAY SYSTEM (KDS)

**Clear orders. Zero confusion.**

Orders appear the instant they're sent — no slips to carry

No shouting across the pass — color-coded by table

Tap "Ready" → the waiter is alerted instantly

FASTER FOOD, HAPPIER GUESTS

## Serve more guests in the same four walls.

Speed at every step means tables turn faster — more covers a night, with the team you already have.

- 

**Less waiting**  
Orders reach the kitchen in about 30 seconds — food starts cooking sooner.
- 

**The right dish, every time**  
Notes and quantities travel digitally — no “who ordered what?” mix-ups.
- 

**Pay right at the table**  
UPI QR, Cash or Split — no queue at the counter, bill settled in seconds.
- 

**Receipt on WhatsApp**  
Professional, paperless — and it quietly builds your guest list for repeat visits.

**~30s**  
Order reaches the kitchen

**2x**  
Faster table turnaround

**0**  
Lost or missed orders

**100%**  
Bills correct & recorded

BILLING — TABLIO'S BIGGEST WIN

## Bill in one tap. Get paid any way.

No counter queue, no calculator, no “change please” — the bill is right and paid at the table.

- 

**Auto GST, discounts & round-off**  
Totals are always right. Split a bill across guests in a single tap.
- 

**Every round on one clean bill**  
Order again and again — each KOT is tracked, then combined automatically.
- 

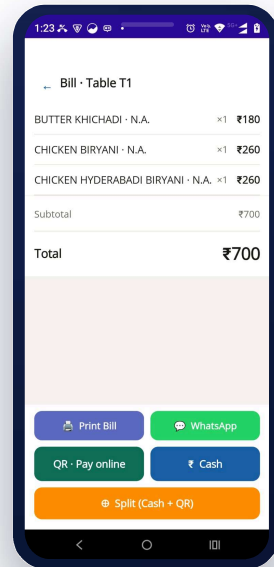

**Instant WhatsApp bill**  
Paperless, professional — and your guest list grows itself for repeat business.
